about

I am a Multimedia Design student in Swinburne Sarawak. Ever since I was young, I developed a strong passion for art and design, so I am glad that I am able to apply my creativity and skills in my career. I thrive under high pressure and between deadlines, resulting in a 4.0 GPA. Improving my dexterity has always been one of my primary goals; hence I am willing to learn and take up new challenges with an open mind.

experience

● **Freelance**

I illustrate/paint portraits and design presentation slides for clients upon requests (commissions).

● **Melaleuca: The Wellness Company**

I designed informative flyers and pamphlets used by the company's directors and marketers in introducing their latest products.

● **Sarawak Forestry Department**

I have been recommended by Mr. Michael Lee, a lecturer in Swinburne Sarawak and a notable graphic designer in Kuching, to work with the Forestry Department to create a handbook where I worked on template designs and illustrations.

● **MyAqua-Nic's Farm Sarawak**

I designed a whole new logo, business card, packaging sticker, company t-shirts and a design guidebook for the company.

● **Hive, Swinburne University of Technology Sarawak**

I was chosen to illustrate vector murals for the walls and pillars of the new design studio of Swinburne.

● **International Collaborations**

I have collaborated and brainstormed with artists from different countries to create illustrations and contents for social media. Countries include USA, Peru and Hong Kong.
